It appearing to the Board that the order here-  
before published in the Plainesdealer, on the 18th  
day of February, concerning the apportionment  
of the tax for the construction of a sidewalk  
along the north side of block Q, in the town of  
Reno, contained a misdescription of the block,  
the same being described as block O. It is or-  
dered that the said order be published in the  
DAILY NEVADA STATE JOURNAL, for two consecu-  
tive weeks, to-wit:  
ORDER—It appearing to the Board of County  
Commissioners that heretofore, to-wit: on the  
2d day of October, 1881, a petition of the major-  
ity of the frontage property owners along the  
north side of block Q, in the town of Reno,  
praying an order of this Board for the construc-  
tion of a plank sidewalk along said block, and  
that on the 7th day of November, 1881, after  
due consideration and notice thereof, published  
in the Plainesdealer, a newspaper published in  
said town of Reno, for the period of two consecu-  
tive weeks, and it further appearing that said  
sidewalk was constructed as per the order of  
this Board by all the frontage property along  
said block, except seventy-five feet, to-wit: fifty  
feet along the front of lots 16 and 17, owned by  
I. B. Marshall, and twenty-five feet along the  
front of lot 14, belonging to the Western Union  
Telegraph Company, in said block, and the  
Board thereupon advertised for bids for the  
construction of said seventy-five feet of side-  
walk and it appearing that the bid of Joseph  
Odett, in the sum of seventy-five dollars, was  
the lowest and best bid, and the same being

along the front of lots 14, 16 and 17, and that  
the cost thereof is \$75.  
Now therefore, it is ordered that the cost of  
the construction of said walk be apportioned  
among the frontage owners of said lots as fol-  
lows: To the said I. B. Marshall, owning lots  
16 and 17, 50 feet, \$50; to the said Western

## IRELAND'S MISFORTUNE.

No greater calamity could possibly have befallen Ireland at this time than the infamous assassination last Saturday evening, in Phoenix Park, near Dublin, of Lord Cavendish, the new Secretary, and Mr. Thos. Burke, Home Secretary. That such a horrible crime should be perpetrated just as the new policy had been decided upon will leave a stain which Ireland will repent in sackcloth and ashes. Parnell, Dillon and Davitt, the three greatest Irishmen of the day, promptly disavowed any connection of the Land League with the crime, and appealed to the Irish people to leave nothing undone to discover and punish the assassins. Similar messages have been cabled across the Atlantic by Ireland's warmest American friends, yet England can hardly afford to allow Guilt in Ireland, and the result will be that Ireland will be made to suffer. Gladstone will be retired, Foster elevated, and the policy which promised so well to be replaced by the one so distasteful to the Emerald Isle. At the very best, Ireland's probation will be extended a number of years.

A Kansas paper says Kansas is in a splendid condition, and she will make a record in 1892, that will bring in thousands of new settlers in 1893. Wheat is looking finely all over the State, and the prospects are favorable for a bountiful harvest in every crop. It is especially fortunate that there is to be a good fruit crop. Corn planting has been going on for ten days, and by the middle of the month the area devoted to this king of cereals will be far larger than ever before planted in that State. The farmers, many of whom suffered from drouth last year, are feeling in an excellent humor.

The Sacramento Bee says the Chinese question has created a lull in the Republican camp, and the only candidate for the Governorship at present much talked of is M. M. Estee. There are some, however, who are looking about for a new man, and General Miller and Congressman Page are mentioned, while not a few insist that the only hope for the party this year is to renominate Governor Perkins. It is claimed by the Miller party that if he carried the State for Governor the National Republican Convention would be compelled to nominate him for Vice President.

The Sacramento Record-Union says they have a phenomenal city out West. It lies in two great States, Arkansas and Texas. The State line runs through the center of the chief street. On each side the population is 3,000. The city has a composite name, Texarkana. It is pronounced the gateway of the southwest. It is but eight years old, but has all the airs of a city of twenty-five years. Four railroad lines center there. It has an Italian-like climate, tramps are not tolerated, the Sunday law is enforced, money is plenty and the people are prosperous in this dual city.

The Hibernia Bank offers to place a limited amount of money on real estate mortgage at 6 per cent. This is probably the longest figure yet named in San Francisco for that class of business. The Hibernia has always led in every reduction in the rate of interest on mortgages. Having the largest line of deposits, it is natural that it should take such a course.

The quicksilver mines of California are producing as usual, though not to the extent of some former years. There is little accumulation of stock, and prices rule steady. Last month the exports amounted to 2,484 flasks, or practically the same as for March.

The subscription for "Betty" Mason and the baby amounts to \$3,000. The distinguished ex-soldier will find himself well off when he leaves the Penitentiary next fall. The subscription beats \$13.00 a month by a large majority.

The Chicago Inter-Ocean says that recent announcement of a revolutionizing force for railroads was an invention fathered by a general passenger agent, which, upon the scrutiny of service men, proves to be impracticable.

A shipment of ice was recently made by steamer from Boston to Glasgow. The quantity taken was 340 tons. It was carried on ship's account for ballast. This is a queer article of commerce in that direction.

Money was probably never more abundant in California than now. Many of the banks have been obliged to invest considerable sums in Government bonds for want of business to absorb their surplus.

Send them East.

## The Cattle Trade.

The Drovers' Journal's annual report for the ranching regions of America, just published, shows the outlook for Western cattle-growers to be exceedingly flattering. The general average loss of cattle during the Winter was 4 per cent., against 9 per cent. during the Winter of 1880-81. In the chief cattle-growing section the loss does not exceed 3 per cent. The general condition of cattle on the ranches is reported at 60 per cent. better than at the corresponding time in late years. The grasses are rather more forward especially in the southwest. The shipping season in the more southern States and Territories will open no earlier, but the general shipping season will commence sooner, and the southwest shipments this year will exceed last year's fall 10 per cent. Texas will stand at least 20 per cent. higher. Grand progress has been made in the introduction of improved blood, and breeders of fine stock are enjoying a big boom by reason of the extraordinary demand for bulls. There are more buyers than sellers on the range, and prices average 4 1/4 per cent. higher than last year. There is no disease, and where there are a few scattering cases of so-called black-leg, the calf crop is the largest known for years.

## California Lands.

Mr. Street, Land Officer of the California Immigration Society, in his monthly report to the Board of Directors of the association, made the following statement relative to the present disposition of the agricultural lands of the State:

The total area of the State is 100,000,000 acres, a portion of which has been disposed of in round figures, approximating as follows:

	Acres.
Belonging to or claimed by railroads	25,000,000
Private grants	8,000,000
Indian and Military reservations	300,000
To the State for educational and other purposes	6,500,000
Lakes, bays, navigable rivers and istms	1,500,000
Swamps and overwooded	1,700,000
Salt marsh and tide lands	100,000
Grand Total	43,000,000

Besides there was a vast amount sold for cash, and disposed of under the pre-emption, homestead and other laws of the United States, certainly amounting in the aggregate to several millions of acres.

## Reorganizing the Supreme Court.

The committee appointed by the American Bar Association to consider the subject of the reorganization of the United States Supreme Court has finished its work, and will, it is understood, make public shortly three separate reports. Four members of the Committee, E. J. Phelps, Courtland Parker, William M. Everts and Richard T. Merrick, agreed upon a report which recommends the distribution of the Court into two chambers or sections, each to be composed of such Justices and to have jurisdiction in such cases as the Court in its discretion may agree upon. Certain classes of cases, however, such as those involving Federal questions shall be heard by not less than seven Justices sitting together. No increase in the number of Justices is thought necessary.

## Wheat Shipments to Liverpool via New Orleans.

The San Francisco Bulletin states that Eppinger & Co. have made the initial shipment of California wheat to Liverpool via New Orleans. The quantity consists of about 600 tons, being selected specially for this purpose. It was placed aboard cars Friday, and is now fairly on the way. The result of this experiment will be awaited with both anxiety and curiosity. A steamer is expected to be ready at New Orleans to receive the consignment, so that as little delay as possible will occur in transportation. This inauguration of a new era in wheat exports will likely cause marked changes in the movements of other articles of California products.

## Lewis District.

There is an impression that mining operations in Lewis District have been almost entirely suspended. The Austin Re-ville learns that such is not the case. The Betty O'Neal mine is being worked right along and a mill running steadily on the ore, which is said to yield a good profit over expenses of mining and milling. Several other companies are operating, and, all things considered, the district seems to have a bright future. Because the Starr-Grove Company's operations are somewhat under a cloud at present, the entire district should not suffer on that account. Those who claim to know of the mines there have a good opinion of the future of Lewis.

B. B. Redding, California State Fish Commissioner, says there is more capacity for the production of human food in an acre of good water than in an acre of good land.

Preparations are making at Baltimore for a National Encampment of the Grand Army of the Republic next month.

## OUR WASHINGTON LETTER.

WASHINGTON, D. C. April 25, 1892.

In spite of the grim tragedy that hung like a pall over the opening of the fashionable season at the Capital, Vanity Fair has never shown with more brilliancy than during the past Winter and present Spring, and now that the six months of mourning prescribed by our English imitating official etiquette is over, and the repressive days of Lent are passed all semblance of restraint is laid aside and Washington, from sage Senator to sweet sixteen, is nightly massed at a reception, a great dinner, a ball, or the opera. At the Presidential receptions during the last two weeks the dressing was unsurpassed by anything I have ever seen, except perhaps the toilettes of "Nana" and those of her class at the grand prix de Paris in 1878. The gentlemen of the foreign legations wore court dress with great display of golden lace and buttons, and it was necessary for the ladies to throw the utmost possible splendor into their costumes in order to vie in brilliancy with the tinselled soldiers and diplomats. The display of diamonds was literally dazzling. No such display has been seen since Mrs. Astor appeared, loaded with precious stones and followed by a hired detective.

Among successful dinner givers Senator Fair must be awarded the first place. He lives in a large house adjoining the Arlington Hotel. The building is superb in all its appointments. The practically unlimited wealth of the bachelor Senator enables him to dine everybody that is worth dining. It was impossible, of course, for Congress, officers of the army, and of the Navy to sit down to his table at one time, but he has followed the programme of the President's state dinners, and by inviting in group, has gotten pretty well through the list. At a dinner given by him attended by the President, cabinet and their families, there were sixteen courses and eight varieties of wine.

President Arthur has not upheld the banner of teetotalism with very great enthusiasm, and has incurred the displeasure of those who lament the end of the administration of Mrs. Hayes. He has been accused of unseemly debauchery, and of making the White House a chapel of drunken saturnalia. On the other hand it is claimed while not a total abstainer he has complete control of his appetite, and that neither he nor his companions ever go beyond the bounds of decorum. One of his defenders goes so far as to say that his career and his devotion to the business of his exalted office have caused him to lose twenty pounds in weight. I do not believe this last story. He is certainly stouter looking, and has more color than he had when he presided over the Senate one year ago, or when he appeared at the Inauguration Ball at the National Museum, scarcely noticed among the greater celebrities there.

I went one day last week to attend the lectures of the Academy of Science, now held in one of the rooms of the National Museum. Mr. Cushing was lecturing on the Mythology of the Zuni Indians, while half a dozen representatives of the tribe, in native costume, sat on the platform behind him, fast asleep. I could not help thinking of the last time I had been in the building, lighted and heated to suffocation, crowded with the wealth and talent and beauty and wickedness of the country. About ten o'clock there was a commotion in the crowd, and a rush to the western door through which entered the pale, careworn, bored-looking President with Mrs. Garfield on his arm.

## Fitz John Porter.

The President has pardoned Fitz John Porter. This is all he could do under the decision of Attorney-General Brewster to relieve him of the disabilities imposed by the Court-martial's act. The President's action, of course, does not restore Fitz John Porter to the army, nor is it a step in that direction, unless Congress shall pass a special Act for the benefit of Porter, authorizing the President to appoint him. All that pardon can effect is to relieve Porter from the disqualification of holding civil office. It is known to be Porter's intention to endeavor to secure the passage of a bill which will authorize the President to restore him to his former rank, in a sense that would not have been possible or practicable in the absence of a pardon.

## Pisciculture.

The California State Fish Commissioners will receive in the next three weeks from the Government Commissioner a large supply of the eggs of McCloud River trout, which will be hatched and distributed in the waters of the State. A consignment of 10,000 eggs has already been received. A quantity of carp will soon be distributed in the ponds, and the season's work of the Commission will then be over until the salmon hatching season commences.

## A Good Showing.

[S. F. Post 6th.]

The Post has reliable information that the bullion product of the Union Consolidated mine for the month of April amounted to \$94,000. The "clean up" at the Comstock mill last Monday resulted more favorably than many of the sanguine friends of the mine anticipated, and a shipment of about \$57,000 will reach this city before Monday next, which, added to the bullion previously received, will make the total product as stated above. The bars, we understand, run slightly over three-fifths in gold, so that the Union Consolidated mine is not so hampered with the heavy discount on silver as some of its neighbors have been. Assuming the monthly product to have been \$94,000, it is seen that the mine turned out slightly over \$3,000 per day. We do not know the number of tons of ore which the mill crushed in April, so as the average yield of the ore per ton can be calculated, but when crushing has begun the pulp assays were reported at about \$40, and lately they are reported to have run as high as \$70, if not higher, owing to the

## IMPROVED QUALITY OF THE ORE

In the slopes as extended southward. No such ore from the Comstock has been milled since the days of the Consolidated Virginia and California bonanza. This should set at rest the oft repeated yarn of the bears that the ore in Union Consolidated would not pay to mill. In the Union office in this city, they are as yet unable to state the exact financial condition of the company, because the returns are not all in from the mine and the mill, but the company will have a very handsome surplus above all indebtedness in the treasury when the balance sheet for April is drawn, and as soon as the figures can be obtained, the Post will publish them. There is not the least doubt that this surplus will be steadily increased owing to the amount of ore known to have been developed in various sections of the mine, but how large the increase will be and whether the Union will be in a position one of these days to declare

## DIVIDENDS.

Depend wholly upon the work in progress in the mine. So far everything looks favorable, but the permanency of the mine has yet to be established by the openings which are being made or contemplated on the levels below the 2500.

The Carson Appeal comments as follows:

The Democratic County Central Committee of Storey county are so anxious to begin the campaign that they cannot wait for the State Central Committee to come together and map out the usual preliminaries. Hopful of success at the coming election in this State, based on the recent veto message of a short-sighted President, their impatience to secure political control knows no bounds. But this make-haste policy is not confined to the Democracy of Storey, but is characteristic of the party everywhere. In their anxiety to strike while they deem the iron hot, they do not stop to consider that the Republican party of Nevada en masse are sound on the Chinese question, and that it is folly to expect to gain any strength to their side from this source. The recent meeting of the County Committee has already created a dissension, which we predict will widen and sadly affect the solidity of the Democratic vote in Storey, and result in spilling its fat in the fire.

The following circular has been issued from the office of the President, Central Pacific Railroad:

SAN FRANCISCO, Cal., May 3, 1892.  
Mr. A. N. Towne is this day appointed General Manager of the Central Pacific Railroad and leased lines, with headquarters at San Francisco.

Under the direction of the President he will attend generally to the executive business of the Company, having the supervision and direction of all of the departments of the Company's service, the financial and accounting excepted. His orders will be obeyed and respected accordingly.

LELAND STANFORD, President Central Pacific Railroad.

The statement that ex-Governor Leland Stanford was to retire from active duties is an entire mistake, and its publication is without either foundation or authority. It is understood, however, that much of the executive business heretofore attended to by the President, will hereafter fall upon Mr. Towne, the new General Manager.—[Bulletin.]

A correspondent of the Chico Enterprise proposes Governor George C. Perkins as the next United States Senator from California, and says of that gentleman:

I know that Governor Perkins can not only command the entire strength of the Republican party, but party lines cannot be closely drawn upon him. Only last week a Democratic member of the last Legislature told me that under no circumstances could he vote against Governor Perkins if he should be placed in nomination for United States Senator, and he further said he knew of other Democratic members as strongly determined as he was. No Republican in this State can command so many votes for the position as he could. Between him and Farley the contest would not be at all doubtful. Before the people he would be the strongest man in the State for any position.

An article so favorably known as Hall's Hair Renewer needs no words of praise from us. It has won its way to the highest favor in the public mind, and multitudes who have vainly used other preparations have, on trying this, been made glad by the speedy restoration of abundant locks as in the days of youth.

Everything in the line of Fruit and Ornamental trees, supplied from the Arlington Nurseries, at very low prices for cash. W. J. MARR.

The Bank Commissioners are now closing up their work, their term of four years expiring in about ten days. One of the Commissioners is to-day examining one of the city banks and the other two have gone to the northern part of the State to examine four small banks. These examinations will complete the list. The Commissioners have examined every bank in the State at least four times during their term, and some of them five times. The law calls for semi-annual examinations, but experience shows this to be impracticable and unnecessary—at least this is the view taken by the Commissioners. What the Governor is to do with reference to appointments for this Board is yet a secret. Quite a number of gentlemen are willing to accept the office, some of whom base their claim on services performed for the party. The law says the appointments shall be made on or before the 15th of May. The present incumbents were appointed by Gov. Irwin.—Bulletin.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always gives perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere.

**Annoying the State.**

Gov. Kinkead came down from the Capital last night, having been telegraphed for by Supt. Dawson on account of Asylum matters. It seems that Mr. Jas. P. Winfrey will not allow the State to divert the water from the Sullivan ditch, and on yesterday he banked up the ditch where the water for the Asylum grounds is taken out.

**Blackstone's Best.**

Elsewhere will be found the law card of Mr. Robt. H. Lindsay, whose office is in Snaderland's building, and who is now practicing on his own account, and will attend to cases in any of the courts in the land. Mr. Lindsay is thoroughly competent to properly present any case, excelling, if possible, in the criminal line, every member of the bar in the State conceding that he is the peer of any criminal lawyer in the State. Mr. Lindsay is active and energetic and as true as steel to his clients.

Under the proper heading will also be found the card of the new firm of Dickson & Varian, of Reno and Salt Lake. This combination makes this team a very strong one. Both gentlemen are recognized as first-class lawyers in every sense of the word, and their standing is too well known to render necessary any extended remarks. All business entrusted to their care will be well attended to, promptly and faithfully.

**Frank Leslie's Sunday Magazine.**

The June number abounds with brilliant and highly interesting contributions by the editor (Rev. Dr. Talmage) and other talented writers. The opening article, "Henry Wadsworth Longfellow" is by the editor, also an admirable article, "Brightening Prospects" and the "Home Pulpit" contains one of his characteristic sermons, "Shall we Know Each Other in Heaven?" "Milan and its Cathedral," "The Philosophy of Starving," by Dr. W. C. Gray, "The Pilgrimage of Gottleb and Irgist," are among the prominent illustrated articles and deeply interesting. "The Regicides in America," by the Rev. J. V. Lewis, with its five illustrations, will not fail to attract great attention, as will likewise "Grab Street, London," by Frances Hayes. The sketches, essays, etc., and by well-known authors; the serials "Weighed and Wanting" and "Margaret's Enemy" are continued, and the poems are numerous and of great merit—many of them are beautifully illustrated. Besides an abundant miscellany, there are the following interesting features: "The Collection Basket" "Information for the Curious," "Religious Facts and Fancies," etc., etc. A single copy costs 25 cents only, and the annual subscription is \$3, postpaid. Address, Frank Leslie, 53, 55 and 57 Park Place, New York.

**Wm. Stophor Dead.**

Wm. Stophor died on May 3d, at the Tennessee ranch, a place eight miles out from Auburn on the Auburn and Placerville road. Mr. Stophor was one of Reno's earliest residents and was in business here for many years. A few years ago symptoms of softening of the brain appeared, and he was committed to the Insane Asylum, but for the past year his wife has cared for him at the Tennessee ranch. The letter which brought Constable Avery the news of his death, also states that for the past three months Mr. Stophor had been completely paralyzed.

AYER'S CATHARTIC PILLS

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, GIVING

Pill, and purifying the blood, are the most congenial purgative ever perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.
